

Lube Trucks

If you are looking to convert an existing truck, new or used, to a lube truck, we can help with;

Selecting the right equipment that will stand up to the demands of lube truck service.

Layout and Design - You get to review the layout of the equipment and make changes prior to installation so that you get the truck you want the first time through.

Fabrication of bulk heads, reel racks, tanks, cabinets, etc.

Turn-Key installation

**Equipment Layout
and Design**
