

Filter Carts

Lubrigard's filter carts are an excellent choice for "off-line" filtration in a wide variety of settings. A diversity of mobile carts are available that are equipped to meet the demands of each specific application. Custom designs are also available.

Drum Topper units are designed to fit perfectly on top of a 55 gallon (205 liter) drum. Some models can be used horizontally or vertically for added versatility. Standard drum topper units have the ability to filter oil viscosities up to 600cSt (ISO VG 680) at 100°F within ambient temperature ranges of -15°F to 150°F. Custom designs are also available.

- Filtering contaminated systems
- Flushing new or repaired systems
- Pre-filtering new oil
- Transferring Oil
- Topping off reservoirs
- Collecting oil samples for analysis
- Dispensing new oil

Stand Alone Filtration Systems

Lubrigard's stand alone filtration systems provide a permanent, continuous duty solution for your offline filtration. Various options and designs are available to meet the demands of each specific application. Custom designed units are also available.

- Filtering contaminated systems
- Collecting oil samples for analysis
- Dispensing new oil
- Permanent installations
